

BTA *Signature Series*

SoundWhere® ENSEMBLE 85

The SoundWhere® Ensemble modular cabinet has a full range 3.1 speaker system that sounds fantastic while remaining completely hidden from view. It has a specifically engineered cavity for a recessed articulating service mount allowing the TV to mount flat to the cabinet's face. The integrated equipment storage area has power, ventilation, and cable management that keeps the Ensemble exterior looking sleek and shallow to the wall. The dimmable LED accent lighting provides a modern floating cabinet look while enhancing the unit's refined wood and painted finishes.

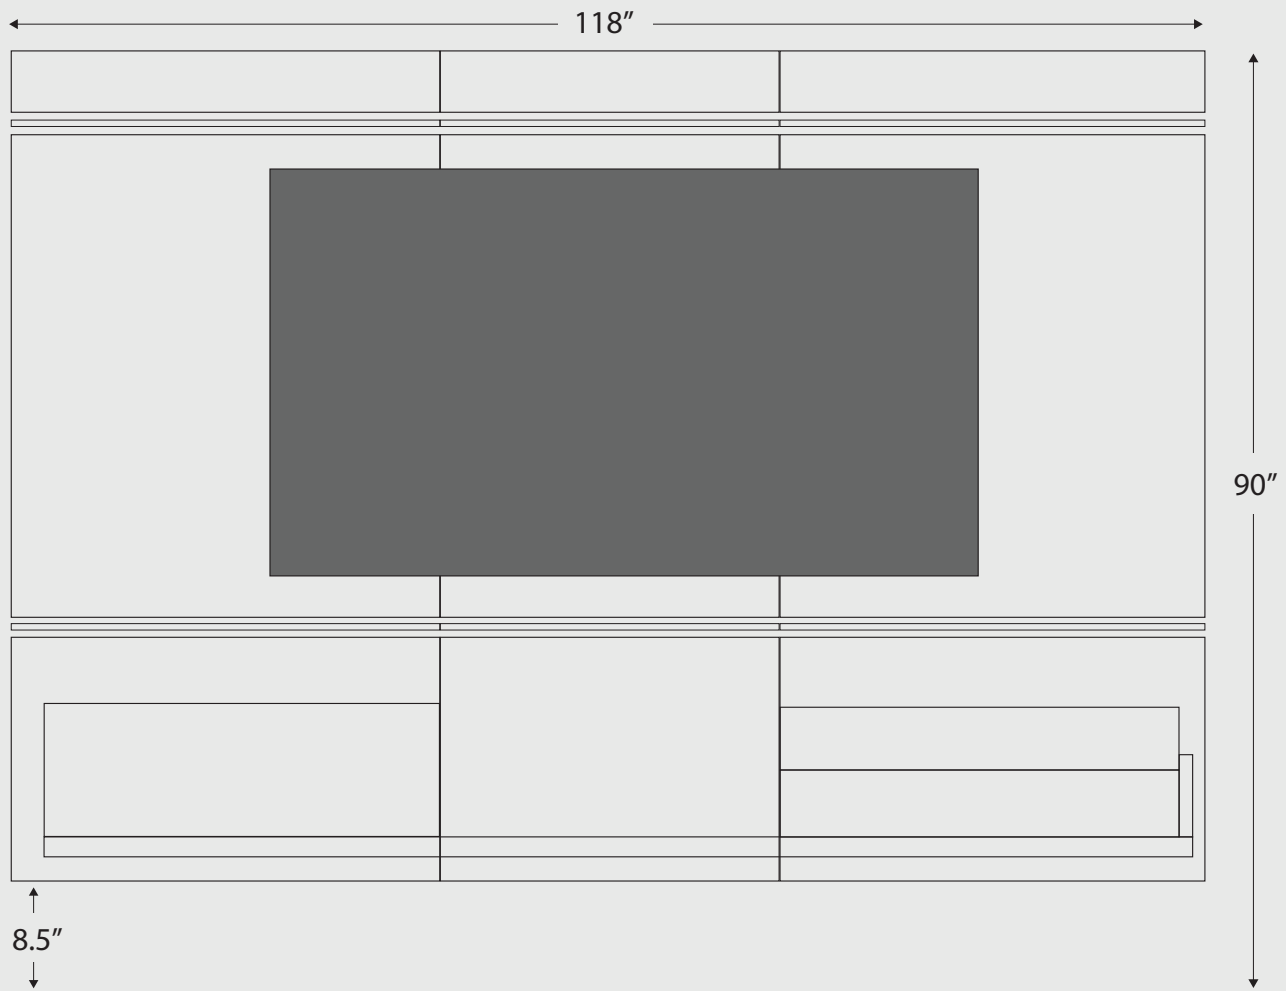

Experience the simplicity of SoundWhere®, a fusion of form and function. Each unit integrates high-fidelity speakers *and a subwoofer*, ensuring superior sound. Designed with equipment storage and efficient ventilation as well as cable management all while enhancing your chosen aesthetic. These modular units are made to fit into any home, apartment, or condo so you can design your room around great sound you cannot see!

6 Standard Wood Finishes
